

APTA Sports Section Emergency Response Course

- November 13, 14, 15 in El Dorado Hills
- Taught by Danny Smith of the Sports SIG
- Required for the Sports Clinical Specialist Exam
- Cost \$380
- Call 916 933-9439 for more info

Hi all,

Fitzpatrick Physical Therapy is sponsoring the APTA Sports Sections Emergency Response Course. This course is necessary to take the Sports Specialist Exam. It is also recommended if you are interested in being on the sidelines of any athletic event, be it high school football, Little League, marathons etc.

The course is basically a First Responder course plus CPR course. The First Responder card is good for 3 years and the CPR card is good for one. However, it is taught by a PT from the Sports Section, and is tailored to build on physical therapy knowledge and to anticipate situations PTs may encounter.

The class will be held at our El Dorado Hills office on Nov 13, 14, 15 (Fri, Sat, Sun). The cost is \$380 and includes all materials. If the group is larger than 15, the tuition will go down (the tuition is \$500 if offered straight through the APTA).

This is a great chance if you are interested in taking the Sports Specialist Exam any time in the next 3 years. Please open the attachments to read more about the course or to sign up 😊

Hope to see you there!

Marian

**EMERGENCY RESPONSE COURSE
NOVEMBER 13-15, 2009
SACRAMENTO, CA**

**Course Location: Fitzpatrick Physical Therapy
3955 Park Drive, Suite 1,
El Dorado Hills CA 95762**

This course is designed to be flexible and will meet, or exceed, the objectives set forth by the Department of Transportation. You will be required to obtain both a course text and workbook. **A certain amount of pre-course preparation is required. Please register in time to secure the materials you will need for this.** The course is designed specifically for the physical therapist working in providing sideline and courtside coverage for athletic events. Additionally, the course fulfills the requirements for a physical therapist to be eligible to submit their application for the ABPTS – SCS examination. The course materials also include video presentations, slides, transparencies and hands-on laboratory sessions. Successful completion of both written and practical examinations is required for this course. Final practical examination will include successful completion of the following: bleeding control and shock management, trauma victim assessment and management, airway insertion and suction, management of injuries to soft tissue and skeletal structures and management of head, neck and back injuries.

Class size is limited to twenty (20). Following successful completion of the course, the participant will be awarded a first responder certificate (good for 3 years) and a CPR certificate (good for 1 year).

Class fees are: \$380
